

**CITY OF GLOUCESTER CITY  
MASTER PLAN REEXAMINATION REPORT  
SEPTEMBER 2002**

**I. REEXAMINATION REPORT INTRODUCTION**

The Reexamination Report provided herein has been formatted into two components. The first deals with the Land Use issues evaluated within a series of planning districts established as part of the 1996 Master Plan.

A review was conducted of the original recommendations and an assessment was made of what was achieved and what remains to be undertaken. For each element contained on the Land Use Map and Strategic Implementation Plan a current (2002) evaluation was made. Such information is referenced in the "Commentary" narrative of the text.

The Housing Plan, prepared originally in 1996 using 1990 Census data has been updated with 2000 Census data and appropriate comparisons have been made with the original information.

Both reports are contained herein as part of this Reexamination Report. Collectively they update the status of the 1996 Master Plan element.
